## Roses for 2016

Our rose list will help you select roses for any desired characteristic: color, fragrance, cutting to enjoy in arrangements, as a hedge, or to grow in a large pot. We have also have roses that will grow in partial shade, and those that are nearly thornless so they can be planted near where children play, or entrances.

Our roses are planted in 3 gallon biodegradable paper pots, containing rose soil, fertilizer and Root Activator. Their canes are pruned to their proper height, ensuring that each bush attains its maximum blooming potential. The biodegradable paper pots should be planted directly in the ground, where they will decompose.

For complete growing information and pictures of the roses in this list, please visit our website: [www.rcwnurseries.com](http://www.rcwnurseries.com). For up-to-date availability about any listed rose, please call us at [281-440-5161](tel:281-440-5161)!

A climbing rose in full bloom is a grand cloud of color that will make your heart sing every time you see it!  
Place it on a trellis at least a foot away from a garden shed, fence, rain gutter, or other structure so that the climbing rose has a suitable place to grow. Or be creative and train it over a fence, arbor, pergola, tripod, or pillar.

Price	Name	Type	Classes	RIR Score	Comments
24.99	Blaze Improved	NP	LCI	8.9	Brilliant scarlet-red clusters of 2- to 3-inch flowers grace this climber. Handsome emerald-green foliage. Magnificent against a white wall or fence. Climbs 10- to 15-feet.
19.99	Cécile Brunner, Climbing	NP	CI Pol	8.5	<b>Old Garden. 1904.</b> The climbing form of the enduring and popular Cécile Brunner old garden rose. Spreads vigorously, bearing lots of clear pink blossoms. Climbs 12- to 20-feet. 42+ petals
26.99	Cloud 10	PP	LCI	(-.)	Climbs up to 8-feet with a 5-foot spread. Blooms of solitary and small clusters of 2¼ -inch white English rose-like flowers. 50 - 60 petals. Dark green, matte foliage. Blooms heavily in spring and re blooms all summer.
26.99	Don Juan	NP	LCI	8.3	<b>1958.</b> Dark red pillar rose that blooms abundantly throughout the summer. 5 -inch blooms, 35 petals. Climbs 8- to 10-feet with short stems and leathery, glossy dark foliage. Heavy fragrance.
26.99	Dublin Bay	NP	LCI	8.4	Large, fully-double true red flowers open in cool weather or take the heat. 25 petals. Blooms on new and old wood. Somewhat slow to climb. Can be trained as a pillar. Climbs 8- to 10-feet with deep green leaves.
29.99	Eden Climber	NP	LCI	8.3	<b>Climbing Romantica. World Federation of Rose Societies 2006 World's Best Rose.</b> Dense clusters of coral-pink flowers with glossy dark green foliage. 40 to 55 petals. Light old-rose scent. Climbs 10- to 12-feet. Very easy to train laterally. Similar to White Eden (described on page 9).
29.99	Fourth of July	PP	LCI	8.2	<b>AARS 1999.</b> Huge clusters of ruffled, semi-double red 4½-inch blooms with white stripes. 10 – 16 petals. Good rebloomer. Climbs 10- to 14-feet.
26.99	Iceberg, Climbing	NP	CI F	8.4	<b>1968.</b> Blooms in flushes throughout the season, like walls of snow. Long canes are easily trained. Grows 8- to 15-feet tall. Medium, semi-double to double cupped blooms. 25 petals. Reportedly tolerates some shade.
24.99	Joseph's Coat	NP	LCI	7.6	Yellow and red multicolored 3½-inch blooms. 25 – 30 petals. Vigorous pillar and recurrent bloomer. Climbs 10 – 12 feet with dark glossy foliage and short stems. Light fragrance.
19.99	Lady Banks White	NP	Ba	9.1	<b>Antique. 1807.</b> Blooms once in the spring on old wood. Prune right after flowering is finished. Climbs 10 - 20 feet. Small double white blooms, resembling cherry tree blossoms. 17-25 petals. Violets fragrance. Deer don't seem to like it.
19.99	Lady Banks Yellow	NP	Ba	9.2	<b>Antique. 1824.</b> Blooms once in the spring on old wood. Prune right after flowering is finished. Climbs 10- to 20-feet. Small double yellow blooms, resembling cherry tree blossoms. 17 - 25 petals. Violets fragrance. Deer don't seem to like it.
19.99	Maggie	NP	B	8.6	<b>Found Rose.</b> Collected by Dr. William C. Welch in Louisiana. Very full carmine flowers, darkening to crimson in cool weather. Vigorous shrub can be grown as a bush, hedge (4-feet tall) or trained as small climber (7-feet tall). 3 to 4-inch blooms. Heady true rose scent.
19.99	New Dawn	NP	LCI	8.4	<b>1930. Earth Kind Rose.</b> Abundant show of soft pink flowers that fade to blush cream. Repeat flowering all summer. Grows 10- to 20-feet tall; 8-foot wide. 4-inch double blooms. 35 – 40 petals.
19.99	Old Blush, Climbing	NP	CI Ch	8.4	<b>Antique. Unknown introduction.</b> Climbing sport of <i>Old Blush</i> (described on page 14). Grows 12 to 20-feet tall. 9 to 16 petals.
29.99	Peggy Martin	NP	CI	(-.)	<b>Found Rose. 2003. The Hurricane Katrina Rose.</b> Collected by Dr. William C. Welch in Louisiana. Vigorous climber reaches 15-feet. Clusters of pink shaded flowers from spring through fall. While promoted as thornless, it does have prickles on the backs of the leaves. Neighbors will come begging for cuttings.
29.99	Pinkie, Climbing	NP	CI Pol	8.2	<b>Old Garden. 1952. Earth Kind Rose.</b> Nearly thornless. Semi-double, very fragrant pink flowers. Train either as a climber or large, cascading shrub. Difficult to see the foliage when the plant is in full bloom. Grows 8- to 12-feet tall by 6-feet wide. 17 – 25 petals.

Price	Name	Type	Classes	RIR Score	Comments
29.99	Pretty In Pink Eden	PP	LCI	(-.)	All the same great qualities of Red Eden and White Eden (described below), with very double, deep pink blossoms. 70 – 80 petals. Strong vintage rose scent. Grows 10- to 12-feet tall.
26.99	Red Cascade	NP	CI Min	8.0	<b>1976.</b> Regularly smothered in color with 1-inch blood red blooms. 40 petals. Climbs 14-feet. Can be trained on a post, wall, trellis, or fence. See it growing on the arbor at our nursery entrance. Fine-leaved foliage.
29.99	Red Eden	PP	LCI	7.3	Large, 4½-inch crimson, full cupped, old-fashioned blooms. 100 - 110 petals. Produces decorative hips. Strong classic rose scent.
26.99	Sea Foam	NP	P	8.1	<b>1964. Earth Kind Rose.</b> Clusters of 2 to 3-inch creamy white, double flowers. 15 - 20 petals. Beautiful orange-red hips in fall. Grows 6- to 10- feet tall. Because of its prostrate habit, it can be trained as a climber or a trailer. Perfect for the white garden as the flowers reflect night light well.

Floribunda roses bloom in clusters on shorter stems. Grandiflora bloom in clusters on long stems, providing "one snip" bouquets. Hybrid Tea roses are the classic long-stem rose. Shrub roses are bushy roses that do not fit any other category. They present their blooms closest to their foliage.

Antique, Earth Kind, Found and Old Garden roses do not need special attention once established. Just give them plenty of sun, room to grow, water, and organic fertilizer. They're not troubled by disease or insects; hate being sprayed with pesticide. Flowering slows down during the height of a Houston summer, and resumes in full force when it cools down.

## Rose Growing Tips

### Planting Site:

- Plant roses in locations where they receive direct sunlight for eight hours or more each day.
- Choose a site that has good air circulation over their leaves.  
Do not plant in an enclosed area like a courtyard or small backyard ringed by an 8-foot tall fence.
- When planting near a wall, or fence, allow at least 1 foot of space between the rose and the wall or fence.
- When growing a rose in a pot, choose one that is large enough to allow the roots to grow.  
A pot that can hold 7 gallons or half whiskey barrel is a good choice.

### Bed Preparation:

- Sandy and loam soils  
Incorporate 3- to 6-inches of organic matter and sprinkle Micro Life into the hole and backfill.
- Clay soils  
Plant in a raised bed that is at least 4- to 6-inches above the surrounding soil.  
Incorporate 3-inches of organic matter. Sprinkle Micro Life into the hole and backfill.
- Regardless of soil type, protect roses year-round with a 3 to 4-inch layer of organic mulch (e.g. humus, pine needles, tree leaves).

### Watering:

- Avoid overhead watering.
- Water early in the morning.  
Do not water in the evening or at night.

### Fertilization:

- Roses are heavy feeders. Fertilize them in March, June and lightly in late August.  
We highly recommend organic fertilizers.
- For the March and June feedings, use fertilizers in which at least half of the nitrogen is in slow release form.
- For the late light August feeding, use fertilizer in which the nitrogen is readily available.

### Disease or Insect Problems:

- Always identify the cause of the problem before applying any treatment.
- If you're unsure what the cause is, bring in a sample to us (in a sealed plastic bag) and we'll be happy to help you determine the problem and recommend a solution.
